

# Ultra Pro Space Invaders

## PREMIUM EDUCATIONAL EDITION — BUYER WELCOME GUIDE

Thank you for your purchase on Teachers Pay Teachers! This short guide walks you through accessing the game, customizing it with your own questions, and answering common classroom questions.

**Delivery:** Hosted online (no download required)      **Devices:** Any modern browser

**Internet:** Required to load the page

### 1. Quick Start (60 seconds)

GAME URL

<https://purebrainplay.com>

ACCESS CODE

\_\_\_\_\_

CODE VALID THROUGH

\_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_

Your current access code is included in the email / PDF you received with your TpT purchase. Write it on the line above for quick reference.

- 1 Open [purebrainplay.com](https://purebrainplay.com) in any web browser (Chrome, Firefox, Safari, or Edge).
- 2 Enter your access code on the launch screen and click [ **LAUNCH GAME** → ].
- 3 On the Mission Configuration screen, choose a difficulty (Cadet / Pilot / Ace) and pick categories.
- 4 Click ► **BEGIN MISSION** — students answer questions to power up their ship and clear waves of invaders.

#### TIP

Once a student enters the correct access code, their browser remembers it so they only need to click **Launch** next time on the same device.

## 2. Access Codes & Renewal

---

The access code shown above unlocks the game at [purebrainplay.com](https://purebrainplay.com). Codes are **rotated every few months** to protect the integrity of the resource for paying teachers.

### How renewal works

- Each TpT buyer is added to a private notification list.
- When the code changes, you receive the new code by email *before* the old one expires — no extra purchase needed.
- Renewed codes are included free for the lifetime of your purchase.

#### MAKE SURE YOU GET THE NEW CODE

Please **follow the seller on TpT** and check the email address you used at checkout. If you change schools or emails, send a quick message through the TpT "Ask a Question" tab so we can update your contact.

### If your code stops working

1. Check your TpT messages / inbox for the latest code email.
2. Make sure you're typing the code exactly — codes are not case-sensitive but trailing spaces matter.
3. Still stuck? Contact the seller via TpT and we'll get you a fresh code within one business day.

## 3. Customize with Your Own Questions

---

The game ships with a sample bank (50 Money & Banking questions) but works with **any subject**. You can load your own question set in under a minute.

- 1 On the title screen, click ⚙️ **Settings** → 📁 **Load My Questions**.
- 2 Choose a plain text file ( `.txt` ) formatted like the sample below.
- 3 Your questions appear immediately — pick categories and start the mission.

## Question file format

Q: What is the capital of France?

A: London

B: Paris

C: Berlin

D: Madrid

Correct: B

Category: Geography

Q:  $7 \times 8 = ?$

A: 54

B: 56

C: 63

D: 49

Correct: B

Category: Multiplication

Separate questions with a blank line. The **Category** line is optional. A ready-to-edit template can be downloaded from the game itself (**Settings** → **Download Template**) or use the included sample file **50 money banking questions for space invaders.txt**.

### NO FILE? ADD QUESTIONS IN THE GAME

Click **Settings** → **+ Add Manually** to type questions directly into the game. Great for quick edits or building a deck live with students.

## 4. Classroom Use Ideas

- ▶ **Test prep** — review the week before an exam
- ▶ **Bell ringers** — 5–10 minute warm-ups
- ▶ **Stations** — one of several rotating activities
- ▶ **Whiteboard** — project for whole-class play
- ▶ **Sub plans** — students play independently
- ▶ **Reward time** — earned learning fun
- ▶ **Homework** — share the URL + code with students
- ▶ **Sub-content review** — pick one category at a time

### Devices & controls

- **Desktop / laptop:** Arrow keys to move, Spacebar to shoot, number keys (1–4) to answer questions.
- **Tablet / phone:** On-screen touch controls appear automatically. Best in landscape orientation.
- **Chromebook:** Works in Chrome out of the box.

## 5. Troubleshooting

---

### The game won't load

- Confirm `purebrainplay.com` is not blocked by your school's web filter — ask IT to allow-list the domain.
- Try a different browser (Chrome works most reliably).
- Refresh the page; if it still fails, clear browsing data for the site and re-enter the code.

### Audio doesn't play

- Browsers block autoplay until the user clicks. Click anywhere on the title screen — sound will start.
- Check that your device isn't muted and tab volume isn't 0.

### Custom questions didn't load

- Open the file in a plain text editor (not Word) and verify the `Q: / A: / Correct:` format matches the sample.
- Save as `.txt` with UTF-8 encoding.

## 6. License (Summary)

---

This product is **licensed, not sold**, to the purchasing teacher for use in a single classroom.

### You MAY

- Use the game with your own students in your own classroom.
- Project it on interactive whiteboards / displays.
- Share the URL and access code with *your* students for homework or review.

### You MAY NOT

- Share the access code with other teachers — they must purchase their own license.
- Post the URL or code on a public website, social media, or any page that isn't a password-protected LMS for your own class.
- Resell, redistribute, or claim this product as your own.

The full legal text is included in the `LICENSE` file in your purchase package. By using this product you agree to those terms.

## 7. Support & Updates

---

- **Questions or bug reports:** message the seller through the "Ask a Question" tab on the TpT product page.
- **New access codes:** emailed automatically to your TpT checkout address before each rotation.
- **Feature ideas:** we love feedback! Reply to the welcome email or leave a review on TpT.
